Silver Mirror Lens with White Frame

**SB5621D\*\*\***  
 Gray Polarized Lens with Black Frame

Polarized lenses eliminate glare, which distorts the true color of objects and makes them harder to distinguish. Glare also causes a mirror-effect on wet surfaces so that objects below the water's surface cannot be clearly distinguished. Glare can be uncomfortable causing eye fatigue from squinting.

**GOLIATH APPLICATIONS**

- Law Enforcement
- Construction
- Industrial
- Landscaping
- Recreation
- Maintenance
- Marine
- Agriculture
- Forestry
